DA-90474

EAN 4016032505921

Dual Monitor Mount, 2x 45", 2x 20 kg Mechanical Spring, VESA: 75x75, 100x100, Black

High-Performance Monitor Mount for Maximum Flexibility and Stability This fully adjustable desk mount was specifically designed for large monitors up to 45 inches and a weight of up to 20 kg per arm—ideal for demanding work environments and high-end setups. Whether you're using a flat-screen or curved display, this mount offers maximum stability and flexibility in a space-saving design. Thanks to its robust, heavy-duty construction, it effortlessly supports even heavy monitors while allowing for precise adjustment in all directions. The integrated spring tension ensures fine-tuned weight adjustment, so the monitor can be effortlessly moved into the desired position—without any readjustment. The VESA quick-release function ensures maximum user-friendliness: the monitor can be mounted or removed quickly and easily. The innovative quick-release coupling also makes it easy to connect the two arm segments and significantly reduces installation time. With two flexible mounting options—table clamp or grommet mount—the mount can be attached to virtually any workstation. The integrated 180° rotation stop prevents accidental contact with walls or adjacent screens, while the clever cable management ensures a tidy, professional look. Ideal for users who value ergonomics, stability, and functionality—whether in the office, the studio, or a home office.

Fully adjustable desk mount for 2 monitors up to 45" with a maximum weight capacity of 2x 20 kg—suitable for both flat-screen and curved monitors
